

FASTSTART

July 20, 2012

Here are some points about the Fast Start course you should be aware of if you end up fielding any questions.

- If a coach doesn't have certification, the Fast Start Course is automatically added and cannot be removed from the member's cart as they register/renew
- There is a \$10 cost for the course, but upon completion the coach receives a \$20 credit that can be used for a Level 100 clinic or other educational resources at the USSA Education Shop <http://educationshop.ussa.org>
- Many coaches believe they have Level 100 certification because they attended a clinic, but they have not completed First Aid/CPR or the on-line exam. All coaches should check their certification status by logging into my.ussa.org before registering/renewing to check their status and contact Sport Education to correct any errors (email education@ussa.org or call 435.647.2050)
- Coaches have 7 days to complete the course (it takes around 1 hour). If they do not complete the course, their membership will be inactivated until the course is completed.

If you have a myUSSA login and want to take a look at the course, send me an email and I will enroll you.

Thanks!

-Jon
